SUPPLEMENT TO
REPORT [REDACTED]

Dugirat (Split)

1. Site of a factory producing carbides and by-products. Formerly belonging to the SUFID corporation, later to "La Dalmatienne", it is now the property of the Yugoslav state.
2. The factory recently was enlarged and has been equipped with modern machinery. Its by-products include cyanamide, lime and a certain quality of oxygen. The carbide and cyanamide used to be exported to Albania and Bulgaria. Present consignment is unknown.
3. Power is derived from the electrical works at Gubavica, which also furnished energy to the city of Split and environs.
4. Since 1947 director of the factory has been [REDACTED] electrician assisted by Barbetti (fnu), [REDACTED] al commissars of the factory are Ivanica Vuic and Markovina (fnu), a cobbler by profession.
5. Production figures are unavailable but it is safe to estimate that they fall below the needs of the country. There are few qualified workers. Italian prisoners-of-war, who used to comprise a good part of the factory force, are allegedly being repatriated and German prisoners-of-war are taking their place.
6. Attached is a translation of a letter written by an official of the Dugirat firm setting forth the urgent requirements for the factory in the line of imports.

Solin

7. At this community near Split is a synthetic rubber factory. The factory is a subsidiary of the State Chemical Industry, and its production is kept secret. Undetermined by-products of carbide are also produced in the factory. The director is Engineer Brichler (fnu). Machinery is Swiss in origin (date of acquisition unspecified).
